## WORK OF CONGRESS.

River and Harbor Bill  
Being Considered.

## QUAY MAKES A DISCLAIMER.

House of Commons Hold a  
Lengthy Session.

What the Mint Director Says  
About Silver.

## Congressional Matters.

WASHINGTON, Aug. 15.—The Senate  
met at 10 o'clock, and, after routine  
business, took up the River and Har-  
bor bill.

Quay made a personal explanation  
as to remarks attributed to him in the  
report of the Republican caucus last  
night. He had been represented as  
saying that he did not wish to have  
the Southern members of the House  
of Representatives relying at his heels,  
urged on by the Speaker. He had  
made no such remark and had made  
no reflection on the distinguished pre-  
siding officer of the other branch of  
Congress.

Hoar expressed the hope that it  
would not be understood that because  
Quay felt called upon to contradict  
such a statement that other people  
were also called upon to contradict the  
mendacious statements as to them on  
a similar subject. The Senators knew  
that the statements as to himself were  
mendacious.

Frye moved to proceed to the con-  
sideration of the river and harbor bill.  
Edmunds demanded the yeas and  
nays; a vote was taken and the motion  
was agreed to—yeas 36, nays 8—so  
the Senate proceeded to the considera-  
tion of that bill.

Hampton having asked Frye to al-  
low him to have a bill taken up for  
action, Frye excused himself for de-  
clining to do so and said that he had  
asked the Finance Committee to let  
him have two days for the considera-  
tion of the river and harbor bill—to-  
day and to-morrow—and that he  
should ask the Senate to remain in  
session to-morrow until the bill was  
finished. He did not feel at liberty,  
therefore, to yield any time for any  
other business.

Amendments were reported by the  
Committee on Appropriations and  
agreed to by the Senate. There was  
one, inserting \$500,000 for the entrance  
to Galveston harbor, Texas.

The House proceeded to the consid-  
eration of the conference report on the  
Indian appropriation bill.

## The Silver Market.

WASHINGTON, Aug. 14.—The Direc-  
tor of the Mint said this afternoon that  
he expected to purchase 500,000 ounces  
of silver to-morrow, and expects to  
pay a trifle more than the London  
market rate for it. He defended the  
policy of refusing to make public the  
exact price the department paid for  
silver, as the prices paid for silver had  
never been made public heretofore; so  
there was no new departure. He con-  
tinued: "There will be no attempt  
on the part of the Treasury Depart-  
ment to buy silver cheap, or to beat  
down prices. The Government will  
pay the full market price, and will  
pay 4,500,000 ounces monthly if it is  
to be had. The Administration desires  
to see the price of silver advance, and  
there will be no attempt in the execu-  
tion of the new law to throw obstacles  
in its way."

The amount of silver offered at the  
Treasury Department to-day was  
704,000 ounces, of which 417,000 ounces  
was accepted. The Director of the  
Mint refused to give the prices paid,  
but it is known to be more than \$1.14.

## A Long Session.

LONDON, Aug. 15.—A lengthy dis-  
cussion took place in the House of  
Commons last night on the railways  
in the Ireland bill. The measure  
passed the committee, and was ordered  
to the third reading by a vote of 73  
to 12.

The House did not adjourn until 7  
o'clock this morning.

## Steamer Arrivals.

LIVERPOOL, Aug. 15.—The City of  
Chester, from New York, arrived here  
to-day.

HAMBURG, Aug. 15.—The Bohemia,  
from New York, arrived here this  
morning.

NEW YORK, Aug. 15.—Arrived, the  
Salem from Bremen.

## Silver Shipment.

NEW YORK, Aug. 15.—Zimmerman  
& Forsyth announce that they will  
ship 200,000 ounces of silver to London  
to-day.

## Consul Sewall's Report on Samoa.

WASHINGTON, Aug. 14.—The report  
of Consul-General Sewall at Apia has  
been received at the State Department,  
but it is being kept secret by Acting  
Secretary Wharton. It is learned,  
however, that it corroborates the re-  
port that the natives are dissatisfied  
because the dual government has not  
been formed, and there are fears of  
trouble. It is also intimated that  
Sewall, in his well-known blunt man-  
ner, raps the foreign representatives  
pretty severely in his report over some  
of their actions, and that it is because  
of this plain language that the report  
is being kept secret.

## THE SAILOR'S YERNACULAR.

How His Language Differs From  
the Landmen.  
A sailor's talk is a dialect as distinct  
from our ordinary language as Choctaw  
or Esquimaux. English words are  
used, but their signification is utterly  
remote from the meaning they have in  
shore parlance. A yard ashore means  
the yard about a house; at sea it means  
a spar. Every coachman and the ma-  
jority of boys know what a whip is,  
but at sea it is a tackle formed by a  
single rope run through a block. A  
lizard is not a reptile, but a piece of  
rope with a thimble or ring spliced  
into it, just as the cathead is a piece  
of timber, and bees are stout pieces of  
plank. Beating is not striking, but  
sailing by tacks. A bonnet is not for  
ladies' wear, but a piece of canvas  
laced to the jib, while a cat's paw has  
as little to do with the feline as fiddles  
and harpings have with music.

White Queen of New Britain.  
The Boston Transcript says: Mrs.  
Emma Forsythe owns most of an is-  
land in the Southern Pacific called New  
Britain. In her own land Mrs. For-  
sythe goes by the name of the "White  
Queen." The chief industry of the  
island is the sale of mother-of-pearl,  
of which 100 tons were collected on  
the seashore last year. Mrs. Forsythe  
was left a widow at the age of eighteen.  
She had at that time very little prop-  
erty, but she now owns 150,000 acres  
of land on the fertile South Sea Is-  
lands, two steamers that ply between  
the islands and this port and she is  
preparing to close a contract for the  
building of four more vessels for the  
island trade.

Independence Lake.  
This resort appears to be the favorite  
reason for trout fishing. The hotel  
is again opened and newly furnished in  
all its departments, together with new  
and safe boats and moderate hotel bills.  
For quiet comfort and health, good  
sport in hunting and fishing and beau-  
tiful location, there is no place in the  
mountains more desirable.

BREVITIES.

Hon. J. F. Emmitt has returned  
from Mohawk Valley, where he has  
been securing his hay crop.

The Congressionalists of Reno have  
purchased of B. F. Leete a lot next to  
their parsonage on the corner of Vir-  
ginia and Fifth streets, on which they  
purpose erecting a new church.

creasing in Spain.

## The New York Central Strike.

NEW YORK, Aug. 15.—At noon  
Webb said that the affairs of the New  
York Central were in such good condi-  
tion that the heads of the various de-  
partments could again assume control.  
Webb denied that he had asked the  
Governor to call out the militia at East  
Albany and West Albany.

General Superintendent Voorhees  
said he had received many applica-  
tions for the reinstatement of old men.  
Their cases will be considered.

Powderly sent a dispatch stating that  
he would arrive here this evening.

UTICA, Aug. 15.—The Executive  
Board of the Locomotive Firemen is  
in secret session in this city. It is  
from other roads than the Central are  
present. Nothing is known of their  
proceedings.

## To-Day's Races.

SARATOGA, Aug. 15.—In the first  
race Vanclaire won, Guardena second  
and Caprice third.

Second race, mile and a sixteenth,  
King Crab won, Granite second and  
Puzzle third. Time, 1:48½.

Third race, half a mile, Romeo won,  
National second and Goldstep third.  
Time, 50½.

Fourth race, one mile, Maid of Or-  
leans won, Major Tom second and Ban  
Chief third. Time, 1:43.

Fifth race, three-fourths of a mile,  
Anticlimax won, Bob Miller second and  
Profligate third. Time, 1:17.

Sixth race, one mile, Corticello won,  
Gunwad second and Raymond second.  
Time, 1:44½.

## A Girl Who Showed Nerve.

OMAHA, Aug. 14.—An unknown bur-  
glar was very neatly trapped when he  
attempted to enter the house of Mr.  
Naugle, at Thirty-eighth and Cum-  
mings streets, yesterday. Mary Sulli-  
van, the hired girl, was alone in the  
house at the time, and the man, who  
was masked, presented a revolver at  
her head and ordered her to show him  
where the family jewels were. "She  
conducted him into another room and  
opened a drawer in a dresser, but in-  
stead of getting the jewels, seized a  
revolver, and pointing it at the in-  
truder's head, compelled him to sur-  
render his weapon and leave the  
house.

## A Child Drowned.

VISALLIA, Aug. 14.—Gracie Rider  
disappeared at 5 o'clock yesterday  
afternoon. She was last seen playing  
in a neighbor's yard near the bank of  
Mill Creek. At 6 o'clock a search was  
begun, and at 10 o'clock the bells  
sounded the general alarm. The peo-  
ple met, organized into squads,  
searched the town and dragged the  
creek till two o'clock this morning.  
The body was found at 8 o'clock this  
morning by a young man named Harp.  
It had floated down the creek half  
a mile. The water in the creek is  
from one to two feet deep. The child  
was two years old.

## The San Francisco's Maiden Effort.

SAN FRANCISCO, August 14.—The  
cruiser San Francisco cruised around  
the bay all day to-day and did some  
good work. With 93 revolutions per  
minute she made 15½ knots, and  
with 100 revolutions made 16½ knots.  
Everything worked smoothly, and  
there was no heating of the ma-  
chinery. The naval officers on board  
were greatly pleased, and seem to  
think she will exceed the limit of  
speed required. An official trial trip  
will probably not occur before the lat-  
ter part of next week.

## Over Niagara Falls.

NIAGARA FALLS, Aug. 14.—This  
morning Thomas Glynn, a huckster,  
while driving around Goat Island, had  
his attention attracted to a man and  
a boat in the rapids above Horseshoe  
Falls. The man disappeared and the  
craft passed over the falls. The man  
was undoubtedly thrown out and went  
over.

day is 52d.

## Eastern Fruit Crop.

SPRINGFIELD (Mass.), Aug. 14.—The  
New England Homestead says: Ap-  
ples will be scarcer and more costly  
this season than for many years.

There is but half a crop of winter fruit  
in the famous Annapolis Valley, Nova  
Scotia, and still greater reductions in  
the apple belt of Southern and West-  
ern Ontario and Michigan. In Maine  
and limited sections of Vermont and  
New Hampshire there is a fair yield.  
Throughout Southern New England,  
New York, Pennsylvania, New Jersey  
and the interior States generally the  
promise of winter fruit is worse than  
ever before known. The great apple  
belt of Western New York has almost  
no crop whatever. Curiously enough,  
there is an area in Missouri and Kan-  
sas, within a radius of 100 miles of  
Kansas City, in which there is a phe-  
nomenal crop of winter apples of fine  
quality. Eastern buyers are al-  
ready gobbling it up at good  
prices. Summer and fall apples are  
also short and command good prices.  
Peaches are a practical failure in  
Southern Ontario and Michigan, as  
well as in the Southern States and  
Connecticut. Pears and plums yield  
unevenly, but far below the average  
crop. Grapes, however, are an im-  
mense crop, save in sections of New  
Jersey and the South, where the black  
rot is playing havoc with the fruit.  
The scarcity of other fruits will sustain  
the market for grapes. The Home-  
stead's preliminary report of the po-  
tato crop indicates a disastrous  
shortage in the South and West, cur-  
tailed in New York, and a fair average  
in New England, if spared by the rot,  
which is now making its appearance.  
Potatoes in Ireland are blighted, and  
they are also rotting in Scotland.

## Cholera Subiding.

MADRID, Aug. 15.—The cholera is  
nearly extinct in Badajoz, but there  
are still a few cases in Alentejo and  
Valencia. At the latter place two  
deaths occurred in a prison which con-  
tained 3,500 convicts.

## THE FIRST WEDDING.

Locality, the Garden of Eden—  
Time, the Year One.

Rev. DeWitt Talmage writes in the  
Ladies' Home Journal as follows:  
What a morning that was of the  
world's first wedding! Sky without a  
cloud. Atmosphere without a chill.  
Foliage without a crumpled leaf.  
Meadows without a thorn. It shall be  
in church, the great temple of the  
world, sky domed, mountain pillared,  
sapphire roofed. The sparkling waters  
of the Gihon and the Hedekel will  
make the fount of the temple. Larks,  
robins and goldfinches will chant the  
wedding march. Violet lily and rose  
burning incense in the morning sun.  
Luxuriant vines sweeping their long  
trails through the forest aisle—uphol-  
stery of a spring morning. Wild  
beasts standing outside the circle look-  
ing on, like family servants from the  
back door gazing upon the nuptials;  
the eagle, king of birds; the locust,  
king of insects; the lion, king of  
beasts, waiting. Carpet of grass-like  
emerald for the human pair to walk  
on. Hum of excitement, as there is  
always before a ceremony. Green  
blades and leaves whispering, and the  
birds chatter each one to his mate.

Hush, all the clouds. Hush, all the  
birds. Hush, the waters, for the king  
of the human race advances, and his  
bride. Perfect man, leading to the  
altar a perfect woman. God, her  
father, gives away the bride, and  
angels are the witnesses, and tears of  
morning dew stand in the blue eyes of  
the violets. And Adam takes the  
round hand that has never been worn  
with work or stung with pain into his  
own stout grasp and says: "This is  
bone of my bone and flesh of my  
flesh." Tumults of joy break forth,  
and all the trees of the wood clap their  
hands, and all the galleries of the forest  
sound with carol and chirp and  
chant, and the circle of Edenic happi-  
ness is complete; for while every quail  
hath answering quail, and every fish  
answering fish, and every fowl an-  
swering fowl, and every beast of the  
forest a fit companion, at last man,  
the immortal, has for mate woman, the  
immortal.

Married—Wednesday, the first day  
of June, in the year 1, Adam, the  
first man, to Eve, the first woman,  
high heaven officiating.

## To-Morrow's Primaries.

There promise to be two or three tickets in the field to-morrow largely made up of the same men. But we advocate the sending of an unpledged delegation to the State and County Conventions made up of men of character in the community, who have the best interests of the State, county and party at heart. We are opposed to jobbery in any form, and shall denounce in unmeasured terms any attempt at chicanery. Both the Conventions have important work to perform, and good, square and upright men should be selected to perform it, and if any one is put on the ticket known to be pledged they should be promptly downed. In another column is submitted a list of delegates to the State Convention for the consideration of voters.

THE seals are reported to have nearly deserted their rookeries in Behring Sea this summer. It is an interesting question whether this is a result of the war which has been waged upon them by poachers. If so, the Behring Sea matter is in a fair way to settle itself, although not in accordance with American interests. The Bulletin says: The more probable explanation is that the non-arrival of the seals is due to one of those temporary variations in the habits of migrating animals which are occasionally noticed without any apparent reason therefor.

AN ex-Mayor of Indianapolis, later a banker in Chihuahua, says, on the authority of Mexican agriculturists, that Mexican peons are well paid at 18 cents a day, out of which they board themselves. The Bulletin says: California orange-growers do not want to compete on even terms with that kind of labor, and it is evident that even Chinamen have no business in Mexico, except to get into the United States.

SENATOR DAVES recently expressed the belief that the American laborer would rather pay half a cent more for a tin can bearing the stamp of the American Eagle than half a cent less for a can bearing the stamp of the British Lion. He should also have added that he would rather pay it to his neighbor than to some man across the seas, and keep his money circulating where it will do him the most good.

The Canadians are discussing the question whether the Mormons entering the dominion are American citizens within the rule preventing discrimination against them. It is not likely that the United States will worry itself about any anti-Mormon movement by the Dominion authorities. We are not solicitous about the welfare of that kind of citizens, if indeed they are citizens.

THERE seems to be no good reason why the Director of the Mint should keep secret the price he pays for silver. The people want to know what their servants are doing and how they are managing the finances of the country, and if we expect to take from London the function of settling the price of silver in the markets of the world we must name the figure.

## FADS OF THE FASHIONABLE.

Backless for dogs' legs are the latest foolishness.

WOMEN'S secret societies are being boomed in Boston under the impetus of a fad.

The fashion of planting large fuchsias on the grass is popular in lawn decoration this summer in England.

Mrs. DOROTHY TENNANT STANLEY has a peculiar fad. Her hobby is parasols, of which she has a wonderful collection.

The newest wrinkle in Boston weddings that take place in church is to have the pulpit draped to match the bride's costume.

A NEW style of mourning paper drops the band of black all around the sheet, and has it drawn diagonally across the left-hand corner only.

It is the fashion now for the woman of fashion to carry two fans, one large and one small, to be used as occasion may require. Mme. Carnot started it.

The use of flowers for decorative purposes is almost a fad this season, and any device, provided it necessitate the use of a profusion of blooms and foliage, is permissible.

At the wedding of Miss Theresa Fair, in San Francisco, the rooms were decorated with draperies of white silk muslin, while the brides were served in cases of brocade silk.

ENGAGEMENT rings, according to the new idea, fads, caprices, or whatever else it may be called, are of the stone representing the month in which the young woman was born.

An hostess of authority in Paris has adopted the innovation of seating a large dinner party at small tables. It is said that the French view of flirtation, from which their young people have hitherto been carefully guarded, has materially changed, and that it is to become an admitted feature of their society.

The latest fashionable "fad" is reported from Yalesville, Pa. At a village improvement entertainment eleven young ladies personated slaves and were put up at auction. They were draped in sheets so as to be unrecognizable, and brought from forty to ninety-five cents each. That quotations ran so low is explained by the fact that it was incumbent upon each purchaser to buy for his slave all the ice-cream, cake and lemonade she demanded, and to escort her home after the entertainment.

FEMININE toilets in England have this year reached a hitherto unheard-of luxury of costliness. Natural flowers have been entirely discarded for imitation blossoms made of jewels. At a recent state ball Lady Brooke had a Nile satin dress veiled with transparent white silk muslin, all sewn over with scattered diamonds, and having on the shoulders epaulets consisting of two big fish made entirely of large diamonds, with sprays of smaller brilliants gushing from their mouths down over her arms. The Duchess of Leinster had serpents of diamonds coiled all over her bodice and others erect rampant on her shoulders, and chains upon chains of these precious stones were about her throat and arms. Nothing like it has ever been seen among English women before.

## ODD AND OTHERWISE.

A CHILD was born at Lima, O., with six toes on each foot. The peculiarity is the doubling of each little toe. The little fellow is healthy and lively. The mother has six toes, and her mother also had the same peculiarity.

The influenza was not wholly an ill wind. On account of its sway the beef extract companies have been unusually successful, one company having lately declared a dividend of six per cent. In addition to a bonus of nineteen percent.

A GERMAN named Lillenthal, after experimenting for twenty-three years with artificial wings, has succeeded in raising himself, weighing one hundred and sixty pounds, with the aid of a counter weight lifting eighty pounds. How to raise the other eighty pounds is still beyond him.

A COMPANY has been formed to rent out steamer chairs for one dollar for a trip across the ocean. The chairs are supplied with little tables designed to hold a plate, tumbler and a bottle. Several thousand of these rented chairs are now in use, and the demand for them is constantly increasing. The idea is that most travelers would rather pay one dollar for the rent of a steamer chair than buy one and be bothered with storing it when they get to Europe.

THERE are many people in Cincinnati who speak and read French. There are so many of them, indeed, that the big book stores down town always keep in stock a very large supply of French novels.

There are quite a colony of French people in the city, and they are good customers of the bookellers. Most of them subscribe for a French newspaper, and one book store has on its list 150 subscribers for a French daily newspaper published in New York.

A SHORT time since a prominent physician of St. Helena, Cal., received from the East some new medicine that was intended for a patient. In order to test its strength the doctor injected a little of it into his own arm. The effect was sudden and startling. His arm began to swell to large proportions and other alarming symptoms appeared of the worst kind of blood poisoning. He called in his brother physicians, and they in turn sent to San Francisco for a third, and for some days and nights they stood watch over the unfortunate patient. At present he is out of danger, but it will be weeks before he can leave the room.

THEY use a clothes wringer for a letter press in one of the largest of the Wall street telegraph offices. The messages to be copied are treated as usual until the time for the putting of them into the press; then, instead of the ordinary screw press, which it takes time and muscle to use, the message and damp tissue copy paper are simply run through a clothes wringer. The rubber rollers answer every purpose of a press, and the operation is almost instantaneous and much easier than the usual way. The machine is placed at the basement window, and there is always a little throng on the sidewalk watching the boys wring out messages.

SPRING measures around the globe everything in and about the house and out-buildings, and are so important that the time spent in carrying them out is used to good advantage.

Reminiscence of the Johnstown Flood.

Rev. H. L. Chapman, pastor of the M. E. Church, Johnstown, Pa., says:

"Soon after the great flood, at a time when diarrhoea was quite prevalent I received a box of six dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy sent me by the proprietors, at the suggestion of Hon. Wesley Redhead of Des Moines. As soon as it became known that I had the medicine for free distribution there began a great run on it, which continued until it was about all gone. Every one, so far as I heard from them, testified to its virtues during it the best medicine for the purpose they had ever used. Those who got it shared it around with their neighbors so that I am confident your generosity in sending it was productive of great good. We used some of it ourselves and found it not only an excellent medicine for diarrhoea but for all kinds of pain and uneasiness in the stomach and bowels. It has been regarded as the best medicine known here for the diseases it is recommended for. In view of your sending such a large quantity for free distribution among poor people, I think you are entitled to this testimonial in its favor. For sale by Shoemaker & Co.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption, she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and as well as she ever was. Free trial bottles of this Great Discovery at W. F. Plummer's Drug Store, large bottles 50c, and \$1.00.

Everything goes Wrong.

In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, imperfect assimilation are certain to ensue. But it is easy to prevent these consequences, and remove their cause, by the use of Hostetter's Stomach Bitters, which stimulates the biliary organ and regulates its action. The city of the stomach, the liver, the tongue and throat of the breath, which characterizes liver complaint. Sound digestion and a regular habit of body are blessings also secured by the use of this celebrated restorative of health. It imparts a decided vigor to the body which is the best guarantee of safety from material epidemics. Nerve weakness and over-tension are relieved by it, and it improves both appetite and sleep.

Happy Honeymooners.

Wm Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for had feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman of same place, says: "I had the Electric Bitter to be the best Liver and Kidney medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies. He found new strength, good appetite and felt just like he had a new lease on life. Only 50c a bottle at Wm. F. Plummer's drug store.

Families not already supplied should lose no time in procuring a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is the only remedy that can always be depended upon for bowel complaint in all its forms. 25 and 50 cent bottles for sale by Shoemaker & Co.

If your kidneys are inactive, you will feel and look worn-out, even to the most cheerful and active. Dr. J. H. McLean's Liver and Kidney Balm will set you right again. 50c per bottle.

When you are constipated, with loss of appetite, headache, take one of Dr. J. H. McLean's Little Liver and Kidney Pills. They are pleasant to take and will cure you. 25 cents a box.

CORRESPONDENCE.

A Straightforward Letter From Francis G. Newlands.

The following correspondence has recently passed between a number of citizens of Reno and Francis G. Newlands, and explains itself:

RENO, Nev., August 9, 1890.

F. G. Newlands, Esq.—Dear Sir: Your name having been mentioned in connection with the nomination for Governor, and also for Member of Congress, the undersigned among your fellow citizens of Washoe county, would like to ask whether you will be a candidate for either position.

Feeling the need at this time of officers of unusual energy and knowledge of our resources, particularly in the way of water storage and agricultural development, as well as on the silver question and others of vital importance to this State, and recognizing the fact that you are the leading exponent of the new development, we believe that your candidacy would command the support of the entire State. Very sincerely yours,

A. C. Bragg, L. D. Folsom, James Mayberry, C. T. Bender, D. B. Boyd, W. S. Bender, R. L. Fulton, J. L. Wines, G. H. Thomas, T. C. Hyman, J. J. Linn, M. E. Ward, G. W. Baker, J. M. Fulton, A. H. Manning, W. D. Phillips, R. D. White, W. R. Chamberlain.

RENO, Nevada, August 12, 1890.

L. D. Folsom and Others, Reno, Nevada.—Gentlemen: Your letter of the 9th inst., suggesting that my name had been mentioned in connection with the gubernatorial nomination, and requesting me to state whether I will be a candidate for either position, is received.

It would be impossible for me to accept the gubernatorial nomination if tendered. The investments of the estate of which I am Trustee will require my presence in Washington some months in each year.

As to the Membership in Congress, I could attend to its duties without jeopardizing the interests of my charge. Indeed, I can see how this office could enlarge my influence in measures already inaugurated for the development of this State. But the claims of the present incumbent, my limited residence in the State, and my short affiliation with the Republican party, present considerations of delicacy and embarrassment, which preclude a personal canvass for the nomination, and could only yield to a general demand for my services, which, under the circumstances, I could hardly expect.

Besides, unless the Republican party places itself as to measures in line with the aspirations of Nevada for a larger development and for the economic reforms which the existing necessities demand, and also requires of its nominees, both Federal and State, a demonstration of confidence in the future of the State, and of a determination to join in the solution of the problems relating to water storage, irrigation, colonization, and the promotion of the varied industries, I would prefer to remain in private station, continuing merely the discharge of the quasi-public duties inspired by an interest in measures rather than in politics.

Should the Convention about to assemble be one of deliberation as to measures which will advance the prosperity of Nevada and the men who will best secure it, I will then consider whether the conditions will warrant my candidacy.

Thanking you, gentlemen, for the high compliment which your letter conveys, I remain very sincerely yours, FRANCIS G. NEWLANDS.

BOUNDARIES EXTENDED.

Effect of France's Recent African Treaties.

The news that France has made treaties with the rulers of Massina, Gornia, Moesi and other neighboring countries south of the great northern bend of the Niger, by which that vast country is placed under French protection, is far more important than appears from the brief cable announcement. It means that France has by this step nearly doubled the area of her possessions south of the Sahara; that she has appropriated the largest fertile area still unclaimed by European powers in Africa; that the upper and most of the middle Niger come under the control of the French Government; and that France pushes her eastern boundary about six hundred miles further east.

Thick Skins.

The skin of a whale is from two inches to two feet thick, that of a large specimen weighing thirty tons. The rhinoceros is the thickest-skinned quadruped, with a hide so tough as to resist the claws of a lion or tiger, the sword, or the balls of the old-fashioned musket. Among bipeds politicians have the thickest skins.

Can We Stand It?

The Battle Mountain Nevada contains the following extremely kind notice of the GAZETTE: "The Reno GAZETTE is ably edited, and comes brim full of editorials with logic hard to refute. It is our opinion that the writer on the GAZETTE, if necessary, can stand off the entire press of the State."

Lottery Stock Going Down.

It is reported that the stock of the Louisiana Lottery Company has depreciated from \$4,200 to \$500 a share on account of the agitation by the Anti-Lottery League on the position taken by the National Administration.

A Clean Record Wanted.

It is reported that Mayor Grant is not likely to be renominated by his party for the important post of Mayor of New York. An effort will be made to unite on a man who has not been concerned in any investigations.

A LINCOLN COUNTY HOMICIDE.

A Drunken Brute's Bloody Work at Royal City.

The Piche Record of the 9th inst. says: At Royal City Sunday morning about 4:30 a. m. Hank Parish stabbed and mortally wounded P. G. Thompson, aged 31, a native of New Jersey, and lately from Aspen, Colo. As nearly as we can ascertain, the facts of the cutting are as follows: Bob Martin, H. Hill, P. G. Thompson and a Chinaman were engaged in playing poker at Jimmy Curtis' saloon on the morning in question. Hank Parish was present, and being intoxicated, persisted in leaning on the shoulder of Thompson, although the latter repeatedly asked him to get off, claiming that he could not play poker under the circumstances.

Parish repeated the act a few times and returned to the bar, when the laughter of the poker party attracted his attention. It seems that the players were laughing at the Chinaman for passing out a "clot flush," but Parish seemingly thought that they were laughing at him, and advancing to the table, he addressed some foul language to the party, mainly addressing himself to Thompson, the latter replying that he did not give a damn for him.

Upon this Parish struck him in the face with his right hand, and upon Thompson rising from the table, Parish struck out with his left hand and stabbed him with a large pocket knife a little above and to the right of the navel. Upon receiving the wound, Thompson cried out that he was hurt, and hurriedly left the saloon. Jimmy Curtis at once secured a team and brought the wounded man to town, arriving at McFadden's Hotel at 8 a. m., and Dr. Nesbitt was summoned immediately.

Sheriff Turner at once secured a team and repaired to Royal City, where he arrested Parish, unaided, and he lost no time in jailing him on his return to town.

The wounded man did not seem to have a chance for recovery from the start, for previous to his death, Dr. Louder was called in and performed an operation at Thompson's request, the same having shown an advanced stage of decomposition and that the bowels were badly cut. The deceased died Thursday evening about 9 o'clock, and although a stranger in the community, the citizens mourn him as an old resident, from the fact of his pleasant presence and fortitude under great bodily pain.

A THOUGHTFUL MAIDEN.

Who Never Failed to Pray for Her Future Husband.

A young lady resident of a Western city, not engaged to be married, and unmistakably fancy free, stated with an air of the most charming ingenuousness that she prayed every night for her husband. "Because, you know, if I am to be married, my husband is living somewhere in this world, and I pray always that he may be delivered from all temptations, be kept in good health, and be successful in whatever path of business he has chosen."

"And is this all you pray for in reference to him?" was asked.

"Oh, no," she blushed a little as she made this admission. "I pray that we may soon be brought together."

Greatly Displeased.

A good old lady, the even tenor of whose ways had long been kept undisturbed in a secluded helmet in Vermont, spent the winter with relatives in a city which sustained a lecture course, and she was persuaded to attend the lectures.

The first lecture was by Colonel Ingersoll. She was much displeased, but held her peace. The second was by Mrs. Jennings Miller on dress reform; and when the old lady returned from the hall she exclaimed in her despair: "What! no hell and no chimney? What's a body going to do?"

Novel Use of Band Saws.

The band saw is becoming more popular every day and new uses are being found for it from time to time. The Exan Company in Cincinnati, O., are often called upon to adopt it for purposes seldom thought of. A short time since the United States Surgical Bureau at Washington, D. C., requested one arranged to saw human skulls and bones. It was a success. Recently this same firm devised a band saw to cut out men's pants from jeans and woolen cloth; it does without fraying at the edges in any way, making a clean and rapid cut; what next?

A Probable Suicide.

H. N. Gregory, Southern California railroad agent at Oceanside, San Diego county, was found yesterday in a depot with a bullet hole in his forehead and a wound in his neck, lying in a pool of blood dead with a revolver by his side. It is presumably a suicide.

Forty-five Years as Bondage.

GENTS: For forty-five years I have been afflicted with blood poison, liver, rheumatic difficulties. Part of the time confined to my bed. My blood was badly diseased. Six bottles of Hibbard's Rheumatic Syrup did me more good than all the other medicine I have taken. My friends have used it and in every case it has proved a wonderful cure of dyspepsia and several other ailments. I am now well and strong. Mrs. M. M. HINDS, Mitchellville, Mich. Hibbard's Rheumatic Syrup and plasters have no equal in the cure of rheumatism and blood diseases.

Dr. H. REINHARD, Druggist.

The Spring is the time to get Hibbard's Rheumatic Syrup for the blood. For sale by all druggists. Prepared only by the Charles Wright Medicine Company, Detroit, Mich.

Spring Fever.

At this season of the year the most vigorous and healthy people often have a feeling of weakness and weariness, without any ambition to do anything, and may break out in pimples and boils. What you require is a mild tonic medicine that will act gently on the liver and blood, and for this nothing equals Dr. Gunn's Improved Liver Pills. They give an activity to the liver, purify the blood and by their mild action, new vitality and strength to the entire system. Sold at 25 cents a box by S. J. Hodgkinson.

Advice to Mothers.

MRS. WINDSON'S SOOTHING SYRUP should always be used for children teething, soothes the child, settles the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

BREVITIES.

Local and General Intelligence.

See 50-cent ad. of a position wanted. G. E. Holesworth, the contractor and builder, is putting up a fine residence on Mill street next to Judge Young's.

The California Republican Convention nominated W. W. Morrow of San Francisco and C. C. Campbell of Stockton for Congressmen at large.

John Lawton and wife of Folsom, Cal., are in town on a visit to C. A. Bragg and family, near whom they were reared "way down in Maine."

Senator Stewart left this morning for Washington. To a GAZETTE reporter he said that he expected Congress would adjourn by the middle of September, when he hoped to be able to come home and assist in the campaign.

It is a fact that Hood's Sarsaparilla cures scurvy, salt-rheum and other diseases or affections arising from an impure state or low condition of the blood, overeating, indigestion, loss of appetite, and gives strength to every part of the system. Try it.

PERSONAL.

Mrs. J. Rhodes of the South Side is reported dangerously ill.

Angus McLeod and two sons of Lyon county were in town today.

Senator W. E. Sharon and Colonel B. Keating returned from below this morning.

W. D. Tobey and daughter of Carson returned from the Bay on this morning's overland.

Jesse Rhodes of Long Valley arrived in town yesterday to have one of his hands treated for a felon.

Mrs. James Phelan, who two months ago took her little daughter to the Bay for treatment, has returned to Reno and reports her child much improved.

Mrs. E. D. Kelley and daughter, Robbie, and Mrs. Frank Germain, Mrs. Kelley's sister, arrived from Winnemucca this morning on a visit to Reno relatives.

For Sheriff.

In to-day's GAZETTE will be seen the announcement of W. H. Coughlin for Sheriff. Mr. Coughlin is one of the early settlers of Washoe and has always been a consistent Republican and a worthy citizen, a man who, if placed in the Sheriff's office, will not fear nor hesitate to perform the duties of that important office, and the GAZETTE hopes he will be the nominee. If he does, it will use all honorable means in its power to secure his election, for it believes he is in every way fitted for the place.

They Went Together.

Henry Waldo and Miss Florence Hoffman were drowned in American Lake, near Tacoma, last Wednesday.

Waldo and Hoffman were together, and Waldo kept on the surface with Miss Hoffman until exhausted, when they sank in each others arms. They were betrothed.

Held For Perjury.

Christian Merkle, who confessed to having killed Joseph Van Wyl, at Napa, after his wife had been convicted of crime, has been held on a charge of perjury, his evidence in the case being contrary to his confession.

Fine Crops in Georgia.

The Atlanta (Ga.) Constitution says the crop reports which come in from all sections of the State indicate that Georgia farmers have this year been peculiarly and bountifully blessed of Providence.

"A GROWL."

MR. EDITOR: Although my taxes are small, yet they are as burdensome to me as if I paid much more. And as a taxpayer, I feel that I have a right to criticize those extravaganzas that are factors in the creation of high taxes. I have in my mind the county hospital. No sooner does the impecunious citizen become broken down and

dear than he rushes off to the hospital. Even persistent dyspepsia and constipation are getting to be excuses for admission. Hence, allow me space to enter my feeble protest against further continuance of this pernicious practice. It costs too many hard dollars for the treatment of these unfortunate, and it is high time that they should know that they can save the county that expense, by the judicious use of a few bottles of Joy's Vegetable Sarsaparilla—a remedy that within my observation is a sovereign cure for those too common disorders. If they won't take it they ought to be compelled to by some law that would meet the case. Under such circumstances a full hospital is inexcusable,—hence this growl.

A CITIZEN.

A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when scratched. This form, as well as blind bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs the matter, always itching and efforts, a permanent cure. See Druggists or mail; treatise free. Dr. Bosanko, Napa, Cal. Sold by S. J. Hodgkinson.

J. E. Moore of Stockton, Cal., says: "I was Abietine for man and beast, for inflamed eyes and soreness it has no equal. An ever wet bottle. The origin and genuine Abietine preparation bears the facsimile signature of D. F. FRYER."
